Objective

Dynamic Senior Software Engineer with over 5 years of comprehensive experience in developing robust, scalable applications using Microsoft Technologies. Proven ability to lead in a team-oriented environment, delivering innovative solutions through effective problem-solving, time management, and technical skills. Seeking to leverage expertise in ASP.NET, MVC, C#, Angular, and SQL Server to contribute to the success as part of the development team.

Technical Skills

- **Languages/Expertise:** C#, ASP.NET, ASP.NET Core, MVC, Entity Framework, LINQ, Angular, JavaScript, HTML, CSS, ASP
- **Databases:** Microsoft SQL Server, SQL Workbench
- **Tools:** Visual Studio, Android Studio, Git, GitHub, Azure, Microsoft SQL Server Management System
- **Frameworks/Technologies:** DevExpress, Nhibernate, Web API, WPF/XAML, Windows Forms, Razor, jQuery
- **Others:** Message Broker Applications (e.g., RabbitMQ), Client/Server and Domain Driven Architecture, Object-Oriented and Functional Programming, Experience in developing mobile applications

Work Experience

CureMD – Senior Software Engineer (Jan 2023 – Present)

- Perform development tasks using ASP.Net, ASP, Store Procedure and window services, focusing on creating clean testable and reusable components.
- Develop and deploy advanced SQL Server solutions to improve application performance and reporting capabilities.
- Supported the adoption of Git and GitHub version control practices that improve project tracking and collaboration.

PureLogics – Senior Software Engineer (July 2022 – Dec 2022)

- Play a key role in ASP.NET application development, specifically delivering web solutions in Entity Framework and MVC.
- Improve application performance by optimizing LINQ queries and introducing DB First models and NHibernate queries.
- Publish new ideas for new programs and features by staying up to date on industry trends.

Smart Venture – Senior Software Engineer (March 2020 – June 2022)

- Led the development and maintenance of diverse ASP.NET applications, focusing on Entity Framework, MVC, and service-oriented architecture.
- Worked on key projects such as Spirit ERP, Lycos SMS, and Learning Management System, contributing to the full development cycle from concept to deployment.
- Demonstrated proficiency in RDLC

Mega Cloud Clicks - Software Engineer (Dec 2018 – Feb 2020)

- Developed and maintained ASP.NET (MVC, Entity Model) applications, focusing on HR, inventory, and accounts modules for ERP systems.
- Demonstrated proficiency in RDLC reports and CRUD operations, significantly contributing to project success.

Education

- Master's in computer science, Fast NUCES Lahore Campus, 2022
- Bachelor's in computer science, University of Central Punjab, 2018

Certifications and Achievements

- Coaching champion award for 2nd runner up.
- Appreciation certificate of efforts in development.
- Certified in IT-Basic Short Course from PICIT.
- Participated in ACM ICPC Lahore National 2016 and QUESTeRA under IEEE society UCP.
- Certificate of Appreciation for Exceptional dedication and Hardwork by CureMD 2024.
